

RAG Responses: **C**onfident and **C**orrect? (**R2C2**)

– A new NTCIR-19 pilot task

- Topics: one-answer natural language questions about movies
- Organisers will construct an IMDb-like corpus for RAG systems
- Passage (extraction and) Retrieval (PR) subtask

Extract **passages** from the corpus and rank them
(Organisers will share all PR runs to all participants)

- Answering with Confidence (AC) subtask

Output an **answer** with the system's **confidence score**, and **nuggets** extracted from any of the PR runs (e.g. Waseda can utilise Tsinghua's PR runs)
